

PRODUCT CATALOGUE

Quality raw materials for **every industry.**

Reliable supply and distribution of natural rubber, chemicals, adhesives, marine products, fertilisers and palm oil products.

Driving supply chain excellence since 2020.

Beyondextend Sdn. Bhd. is a dynamic trading company in Kuala Lumpur, specialising in the supply and distribution of high-quality raw materials for a wide spectrum of industries.

Our core strength lies in strategic sourcing. By working closely with a curated network of trusted global suppliers and manufacturers, we deliver natural rubber, chemicals, marine products and agricultural commodities matched to the precise needs of each client, with the quality and timely service your production depends on.

This catalogue introduces our core product lines. We stock standard grades commonly used across rubber, chemical, marine and agricultural applications, and we work with manufacturers to supply custom formulations or packaging to suit your requirements.

Quality assured. Partnership driven.

We leverage our global supplier network to deliver the precise quality and reliability our clients' businesses demand. Our reputation is built on three commitments.

FOUNDATION OF TRUST

Reliability

Our steadfast dedication to consistency and dependability in everything we do. It is our assurance that we deliver on our promises, every time.

OUR STANDARD OF OPERATION

Professional Excellence

Deep industry knowledge and meticulous execution. We provide not just a service, but an expert partnership.

OUR DRIVING PURPOSE

Client Dedication

Our goal is not just to complete an order, but to be a catalyst for your growth. We measure our success by the success we help you realise.

WHY BEYONDEXTEND

Your source for quality raw materials

Global supplier network

Strategic sourcing from trusted manufacturers worldwide.

Standard & custom grades

Off-the-shelf grades or tailored formulations and packaging.

Domestic & export

FOB, CFR and CIF shipments through major Malaysian ports.

Full documentation

TDS, MSDS and supporting documents with every quotation.

Pricing is competitive, but what we value most is that the quality is steady from batch to batch.

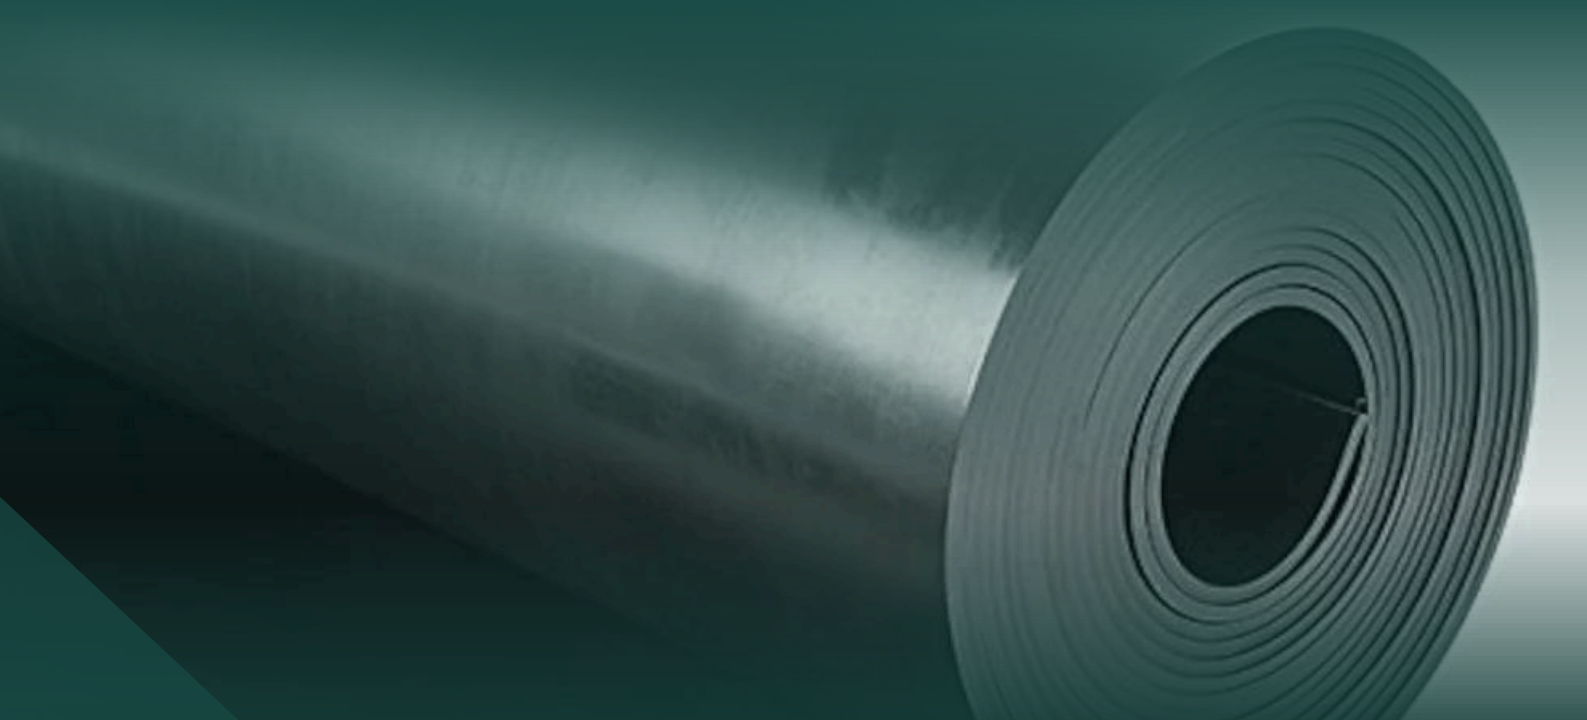

OLEG POLJAK · CLIENT

01

SECTION 01

Natural Rubber & **Rubber Additives**

Expert sourcing of natural rubber and compounding additives for high-performance applications, with global access to top-grade material for tyre, automotive and industrial manufacturing.

Standard Malaysian Rubber (SMR)	05
RSS 1 & Latex	06
Rubber Compounding Additives	07

Standard Malaysian Rubber (SMR)

Technically specified natural rubber produced in Malaysia, graded and supplied in compact bales for consistent, batch-to-batch quality in demanding compounds.

Key properties

- High tensile strength and excellent resilience
- Outstanding green strength and building tack
- Low heat build-up for dynamic applications
- Graded to specification for consistent processing

SMR 10

GRADE

Technically specified rubber with low dirt content and good processing behaviour. A dependable choice for tyre carcass and sidewall compounds, belting and general mechanical goods.

SMR 20

GRADE

The workhorse grade of the tyre industry. Widely used in truck and passenger tyre compounds as well as hoses, footwear, moulded and extruded goods.

Product details

ORIGIN	Malaysia
GRADES	SMR 10 · SMR 20 · other SMR grades on request
FORM	Compact bales, polythene wrapped
PACKAGING	Bales on shrink-wrapped pallets, or loose in containers
SUPPLY	By the bale or by the container load
DOCUMENTS	TDS · MSDS · Certificate of Analysis

Typical applications

Passenger tyres

Truck & bus tyres

Retreading

Conveyor belts

Hoses

Automotive parts

Footwear

Engine mounts

Moulded goods

Extruded profiles

Ribbed Smoked Sheet • RSS 1

The premium visually graded natural rubber. Field latex is coagulated, sheeted through ribbed rollers and slowly smoke-dried, giving clean, dry and firm sheets with excellent strength properties.

- ▶ Highest RSS grade, free of blemishes and impurities
- ▶ Very high tensile and tear strength
- ▶ Ideal where mechanical performance is critical

Tyres

Inner tubes

Belting

Footwear

Rubber goods

NBR & Synthetic Latex

Water-based polymer dispersions for dipping, coating and binding applications, supplied in bulk with consistent solids content and stability.

NBR Latex

Nitrile butadiene latex with excellent resistance to oils, fuels and chemicals. Used in glove dipping, paper saturation, textile coating and adhesives.

Synthetic Latex

Versatile binders for paper and board coating, carpet backing, construction products and water-based adhesives.

PACKAGING

RSS 1 in bales · Latex in drums, IBCs or flexibags

DOCUMENTS

TDS · MSDS · Certificate of Analysis

CUSTOM

Grades and packaging matched to your process on request

Rubber Compounding Additives

A targeted portfolio of compounding additives for enhanced durability and optimised processing efficiency.

We work with your technical team to source additives that fit your existing formulation, or to qualify alternatives that improve cost and performance. Share your recipe or target properties and we will recommend suitable grades.

ADDITIVE FAMILIES WE SUPPLY

1 Cure systems

Accelerators and activators that control cure rate, scorch safety and crosslink density.

2 Protection

Antioxidants and antiozonants that extend service life against heat, oxygen and ozone.

3 Processing aids

Peptisers, homogenisers and process aids that improve mixing, flow and dispersion.

4 Dispersions & stabilisers

Ready-to-use dispersions and stabilisers for latex and compounding.

Product details

FORM	Powder, pellets, granules, flakes or liquid
PACKAGING	Bags, cartons, drums or bulk bags, palletised
DOCUMENTS	TDS · MSDS · Certificate of Analysis
SAMPLES	Trial quantities available for qualification

Typical applications

Tyre compounds

Technical rubber goods

Latex products

Gloves

Hoses & belts

Seals & gaskets

Footwear

02

SECTION 02

Chemicals & Performance Materials

Broad solutions for industrial and specialty chemical needs across varied sectors, from bulk commodities to performance chemistries and adhesives, sourced with precision for your processing needs.

Industrial & Specialty Chemicals

09

Adhesives & Sealants

10

Industrial Chemicals

An extensive array of bulk chemicals for diverse manufacturing and industrial applications, delivered with consistent quality and dependable lead times.

Acids

Mineral and organic acids for processing, cleaning and pH control.

Alkalis

Caustic and alkaline products for neutralisation and treatment.

Solvents

Industrial solvents for coatings, cleaning and extraction.

Manufacturing

Water treatment

Agriculture

Metal treatment

Cleaning

Specialty Chemicals

Performance-driven chemistries that add value in formulation, for coatings, plastics, polymer and rubber processing.

Resins

Binders and tackifiers for coatings, inks and adhesives.

Dispersions

Polymer and pigment dispersions for water-based systems.

Stabilisers

Heat and process stabilisers for polymers and latex.

Plastics

Paints & coatings

Inks

Polymer processing

Food & beverage*

PACKAGING

Bags, drums, IBCs, flexibags or ISO tanks, depending on product

DOCUMENTS

TDS · MSDS · Certificate of Analysis

GRADES

Industrial, technical and approved food grades*

* Food & beverage applications are served with approved grades only.

Adhesives & Sealants

Key adhesive solutions for comprehensive industrial requirements, from construction sites to high-speed production lines.

01 Construction adhesives

High-strength bonding for panels, flooring, tiles and building materials.

02 Sealants

Flexible, durable sealing for joints, glazing and weatherproofing.

03 Industrial adhesives

Water-based and solvent-based systems for packaging, wood, footwear and assembly.

04 Custom solutions

Formulations and pack sizes tailored to your line and application method.

WHY SOURCE WITH US

- ▶ Standard grades and custom formulations
- ▶ Flexible packaging from cartridges to IBCs
- ▶ Trial samples before bulk orders
- ▶ Full TDS and MSDS with every product

Typical applications

Construction

Flooring

Woodworking

Packaging

Automotive

Footwear

Assembly

03

SECTION 03

Marine Products

Protective coatings and lubricants that keep vessels in service, supplied for newbuilds, dry-docking and in-service maintenance across all vessel types.

Marine Paints & Coatings

12

Marine Lubricants

13

Marine Paints & Coatings

Complete protective coating systems for hull, topside, deck and superstructure, built to withstand seawater, UV and abrasion.

Key benefits

- ▶ Long-term corrosion protection of steel structures
- ▶ Antifouling performance that reduces drag and fuel use
- ▶ Systems for newbuild, dry-dock and onboard maintenance
- ▶ Compatible primers, topcoats and thinners supplied together

PRODUCTS WE SUPPLY

Antifouling Paints

Self-polishing and hard antifouling

Epoxy Coatings

Hull, tank and ballast protection

Alkyd Enamels

General marine maintenance

Tank Coatings

Cargo and fresh water tanks

Anticorrosive Primers

Epoxy and zinc-rich primers

Polyurethane Topcoats

Topside and superstructure

Deck Paints

Durable, anti-slip finishes

Thinners

Matched to each coating system

Product details

AREAS	Underwater hull · topside · deck · superstructure · tanks
PACKAGING	Pails and drums · two-component kits
SUPPLY	Newbuild, dry-docking and in-service maintenance
DOCUMENTS	TDS · MSDS

Vessel types

Bulk carriers

Tankers

Container ships

Offshore vessels

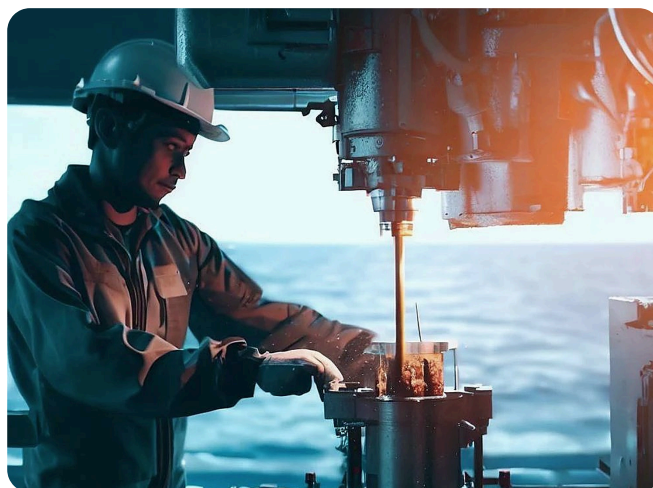

Tugs & workboats

Fishing vessels

Marine Lubricants

Engine, system and auxiliary oils for all vessel types, from slow-speed main engines to deck machinery.

We supply lubricants matched to engine design, fuel type and OEM requirements, helping operators protect critical machinery, extend maintenance intervals and keep vessels running reliably.

PRODUCTS WE SUPPLY

▲ Cylinder Oils

2-stroke engines · low to high BN

▲ Trunk Piston Engine Oils

4-stroke main and auxiliary engines

▲ Gear Oils

Reduction gears and thrusters

▲ Turbine Oils

Steam turbines and turbochargers

▲ Thermal Oils

Heat transfer systems

▲ System Oils

Crosshead engine crankcase

▲ Hydraulic Oils

Deck machinery and steering gear

▲ Compressor Oils

Air and refrigeration compressors

▲ Stern Tube Oils

Including EAL grades

▲ Greases

Wire ropes, bearings and open gears

Product details

04

SECTION 04

Agriculture & **Palm Products**

Fertilisers that drive plantation and crop productivity, and Malaysian palm and palm kernel products for food, feed, oleochemical and energy markets worldwide.

Fertilisers

15

Palm Oil Products

16

Fertilisers

Straight and compound fertilisers that supply the nitrogen, phosphorus, potassium and secondary nutrients crops need for strong, consistent yields.

Why it matters

- ▶ Balanced nutrition for higher, more consistent yields
- ▶ Straight fertilisers or NPK blends for each crop stage
- ▶ Consistent granule quality for even spreading
- ▶ Bagged or bulk supply for plantations and distributors

PRODUCTS WE SUPPLY

Urea

46% N · granular or prilled

DAP

Diammonium phosphate · 18-46-0

SOP

Sulphate of potash · 50% K₂O

Kieserite

Magnesium sulphate

Ammonium Sulphate

21% N · 24% S

MOP

Muriate of potash · 60% K₂O

NPK Compounds

Standard and custom blends

Rock Phosphate

Natural phosphate source

Product details

FORM Granular, prilled, crystalline or powder

PACKAGING 50 kg bags · jumbo bags · bulk

CUSTOM NPK blends to your specification

DOCUMENTS Certificate of Analysis · MSDS

Typical crops

Oil palm

Rubber

Rice & paddy

Fruits & vegetables

Cocoa

Corn

Palm Oil Products

Malaysia is one of the world's leading producers and exporters of palm oil. We supply Malaysian palm and palm kernel products to buyers worldwide.

Food

Cooking oils, fats and ingredients

Oleochemical

Feedstock for soap, personal care and industry

Feed & Energy

Animal feed and renewable biomass

PRODUCTS WE SUPPLY

PRODUCT	DESCRIPTION	KEY USES
Crude Palm Oil (CPO)	Unrefined oil pressed from palm fruit	Refining, oleochemicals, biodiesel
RBD Palm Oil	Refined, bleached and deodorised	Food manufacturing, frying
RBD Palm Olein	Liquid fraction · CP8 / CP10	Cooking oil, food service
RBD Palm Stearin	Solid fraction	Margarine, shortening, soap
Crude Palm Kernel Oil	CPKO · lauric oil	Refining, oleochemicals
RBD Palm Kernel Oil	Refined lauric oil	Confectionery, personal care
PFAD	Palm fatty acid distillate	Soap, animal feed, oleochemicals
Palm Kernel Expeller	PKE · kernel meal	Animal feed
Palm Kernel Shell	PKS · solid biomass	Renewable fuel for boilers and power
Refined Glycerine	Palm-based · USP grade	Pharma, personal care, food
PACKAGING	Bulk vessel · flexitanks · ISO tanks · drums · bags for PKE and PKS	
TERMS	FOB · CFR · CIF from Malaysian ports	
DOCUMENTS	Certificate of Analysis · Certificate of Origin
